

# BERTIL ROOS WINTER RACE SERIES

OCTOBER 2018 – FEBRUARY 2019

## ABOUT US

As a pioneer in the industry, the Bertil Roos Racing School has been training students in the art of motor racing for over 40 years. Graduates of our school can be found at every level from club racing up to the upper echelons of the professional racing.

# BERTIL ROOS WINTER RACE SERIES

OCTOBER 2018 – FEBRUARY 2019

## THE BEST VALUE IN RACING

Known industry wide for our state-of-the-art teaching techniques and world class racing series, the Bertil Roos Winter Series is designed to deliver strong competitive racing at an entry level price.

In our full arrive and drive series, competitors are placed in equally prepped RT 2000 race cars, making this series a test of driver skill and not the budget.

This winter, drivers will compete in four double header weekends at our southeast home of Palm Beach International Raceway, as well as a new addition of Carolina Motorsports Park!

# BERTIL ROOS WINTER RACE SERIES

## NEW SERIES. NEW CAR.

The new Bertil Roos Formula R/T 2000 offers a unique handling characteristic that will appeal to both the beginner drivers, looking to develop their skills, and Bertil Roos veterans looking to take on a new challenge.

The car boasts a 132 hp. 2.0 4-cylinder, fuel injected engine and a 5-speed sequential transmission. Weighing just 1,400 lbs., the R/T 2000 is capable of speeds up to 130 mph and accelerates 0-60 in just 4.5 seconds.

In the corners, the R/T 2000 can achieve up to 2 g's of lateral force on high performance radial tires. This allows students to feel both maximum traction and learn the subtleties of slip angle management that is paramount to mastering performance driving.

## Participation Requirements:

Participants must have completed a Bertil Roos 5-day or 2-day Advanced School, have a valid racing license or have completed one of the following:

- Lucas Race School Advanced Lapping
- Skip Barber 2-day Advanced School
- Sim Raceway Stage 3 Formula School
- Bondurant Advanced Formula School

## NEW TRACKS

### Palm Beach International Raceway

Jupiter, FL

The southeast home of Bertil Roos Racing School. This 2.2-mile, 10 turn road course presents a unique challenge as drivers navigate through a series of long and short, high and low speed corners. The 1/4 mile back straight allows for drafts that will keep racing nose to tail down to the final lap!

### Carolina Motorsports Park

Kershaw, SC

Designed by famed track designer Alan Wilson, this 2.3-mile, 14 turn raceway is the definition of a technical road course. This track tests drivers' skill as they navigate the complex series of twists and turns carved into the South Carolina countryside. Drivers' bravery will also be put to the test as they push to stay flat through the infamous turn 10 kink.
